# HIGHFIELD SOLAR

Photo of the progressing construction of the Highfield Solar Project, July 2021. Photo Credit, Ryan Hornung

MiEnergy, our selected Construction Contractor, is currently Hiring for multiple positions:

At miEnergy, we believe that renewable energy is the future. We are driven, innovative and unique. Our team is passionate about creating positive change in the world and we are dedicated to helping people make the switch to clean solar and geothermal energy.

We work hard, play hard people. We love what we do, but we never forget what really comes first—family. We have a family first policy and a great culture where our team loves coming to work every day. We care about our people, about our society and about the environment.

## PROJECT UPDATE

Progress at the Highfield Solar site has been moving forward well. The piles, racking, and module installations are now complete. The medium voltage equipment is all installed and wired. The control systems have power, and remote communications to the site are operational. Commissioning will soon begin by checking all the systems for correctness and safety. The site will then be connected to the SaskPower network and become live. The live commissioning and performance testing are the last steps and we believe the site will be ready to send power to the grid in the coming weeks.

## SUPPORTING YOUR COMMUNITY

Saturn Power is proud to support community events and initiatives. In July, we were excited to sponsor the Hallonquist Rodeo as well as Frontier Days Regional Fair's fireworks show. We hope you all enjoyed the show! We are looking forward to sponsoring more events and supporting local community efforts in the coming months, including the Salvation Army Food Bank, Dr. Joseph Irwin Regional Healthcare Foundation, Dorie's House, and Swift Current Ag & Ex Youth Farm Education Program.

Joining the miEnergy team means you will be on the cusp of one of the most innovative fields, it also means you will be backed by our caring, supportive team.

No other company is like ours. Join the team that makes it all happen. Change the World with Us!

We are always looking for a highly motivated, enthusiastic Team Members in the following positions;

**·Labourers ·Equipment Operators ·Electricians and Apprentice Electricians ·Sales and Administrative support staff**

What we Offer:

- Competitive salaries
- Family first policy
- Extended health and dental benefits for permanent team members

At miEnergy we empower our teams by creating an environment where everyone, from all backgrounds can succeed. We believe that diversity drives innovation. We are building a culture where differences are valued and celebrated.

We welcome and encourage applications from Indigenous peoples, Visible minorities, Women, and Persons with Disabilities. Should you require accommodation during the recruitment process or otherwise, please contact us at [hr@mienergy.ca](mailto:hr@mienergy.ca) and we will work with you to meet your needs.

## FUN FACT

When the Highfield Solar Project is operational, it will be the first utility scale solar project in the Province of Saskatchewan. We hope to celebrate this historic milestone with the community as well as our partners and others who have contributed to make this possible. We will keep you posted with more information soon!

## Do you have any questions or comments?

We invite you to contact us. We want to ensure this project will provide an ongoing benefit to your community. The development of this project is greatly enhanced through local engagement.

Feel free to forward this email to a friend. If you are not interested in receiving updates on this project in the future, please email and tell us so.
