

**NOTICE OF A PROPOSAL**  
**By Saturn Power Inc.**  
**to Engage in a Renewable Energy Project**  
**AND NOTICE OF PUBLIC MEETING**

**Project Name:** Mississippi Mills Solar Park  
**Project Applicant:** Saturn Power Inc.  
**Project Location:** Concession Rd. 12 South, in the Town of Mississippi Mills, South of Pakenham.  
**Dated at the Town of Mississippi Mills this the 5 of August 2010**

Saturn Power Inc. in partnership with Canadian Solar Solutions Inc. is planning to engage in a renewable energy project for which the issuance of a renewable energy approval is required. The proposal to engage in the project and the project itself is subject to the provisions of the Environmental Protection Act (Act) Part V.O.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of Environment.

This first Public Meeting is being held to provide initial information on the proposed project. The meeting will be an open house format. You are welcome to attend at anytime during the hours indicated below. A second Public Meeting will be held in late 2010 to provide more detailed information on the proposed project.

**Public Meeting Location:**  
**Date:** September 8, 2010  
**Time:** 6:00 pm to 8:30 pm  
**Place:** Stewart Community Centre, 112 Macfarlane St., Pakenham

**Project Description:**  
Pursuant to the Act and Regulation, the facility, in respect of which this project is to be engaged in, is a Class 3 Solar Facility. If approved, this facility would have a total maximum name plate capacity of 10 MW. The project location is illustrated in the map below.

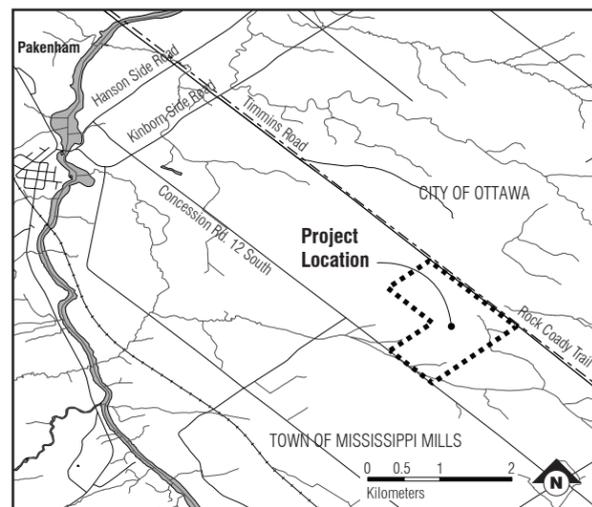

The Draft Project Description Report titled *Project Description Report for Mississippi Mills Solar Park Proposed Solar Photovoltaic Project* describes the project as a solar electric generating facility that will utilize photovoltaic (PV) panels installed on fixed racking structures. DC electricity generated from the PV panels is converted to AC electricity by an inverter. The voltage level of the AC electricity produced by the inverter is stepped-up to distribution level voltages by a series of transformers.

A written copy of the Draft Project Description Report is being made available for public inspection at the local municipal office of the Town of Mississippi Mills, 3131 Old Perth Road, RR2, Almonte and on-line at [www.saturnpower.ca](http://www.saturnpower.ca).

**Project Contacts and Information:**  
To learn more about the project proposal, public meetings, or to communicate concerns please contact either:

**Paul Holmes**, P. Eng., Project Coordinator, Hatch Ltd.  
1235 North Service Road West, Oakville, ON, L6M 2W2  
Tel: 905-465-4906 Fax: 905-469-3404 Email: [pholmes@hatch.ca](mailto:pholmes@hatch.ca)  
or  
**Dave Patterson**, Project Developer, Saturn Power Inc.  
100 Mill Street, Unit F, P.O. Box 6087, New Hamburg, ON, N3A 2K6  
Tel: 519-804-9163 Fax: 519-220-5912 Email: [dave@saturnpower.ca](mailto:dave@saturnpower.ca)
